

ASTLEYVILLE

The new Sturgeon Valley school-house (New Nunoon) was opened Tuesday last with Mr. M. Coghlan as teacher. This school is one and a half miles from Astleyville post office, and six miles from New Nunoon post office.

Hallowe'en did not pass altogether unobserved in this locality. A few boys who enjoy a little fun, took a notion to turn the usual course of traffic on the Astleyville trail by putting a few pickets across. They also visited H. Astley's homestead took the gate off the pasture and carried it down to the Astleyville trail to aid them in blocking it. They then tried to venture a little nearer the residence, but were afraid of the dog. Finally they succeeded in reaching a bush quite near the house, but the dog, who was furious, aroused the inmates. A visitor in the house, thinking there were either coyotes or some other animals prowling around, and not thinking at all of Hallowe'en, got up and took the gun out with him. Presently he heard crackling noises in the bush, then some tinkling and whispering. He waited very patiently until the boys showed up, for by this time he was well aware that they were youths. They climbed the fence and put off as fast as they could go in the opposite direction to their homes, when the watchman called out, "Look out there," and fired in the air. It is said that the boys ran about ten miles.

Hugh McKay, W. McKay and two others passed through here last Thursday on their way home to Edmonton after paying a visit to Grand Prairie.

We are glad to hear that Miss Flossie Squarbrigg, who is quarantined at the home of Rev. Mrs. Farber, Fort Saskatchewan, for scarlet fever, is improving.

Messrs. J. and H. Brandon, G. Warren, Roy Taylor and others of this district, are following the thrashing machines this season. Nice open weather continues.

TRAM LINE SYSTEM

Editor Bulletin.—The construction of a tram line in the town of Edmonton at the present time means an increase in our population of 2,500 people; it means the production of cheap motive power in the town; it means the concentration of all outlying points of importance and brings them within convenient touch with the centre of the city; it means the construction of coal bunkers and the storing of large quantities of coal in the city, and thus guards against the possibility of a coal famine; it means uniform prices; it means the expenditure of upwards of \$100,000 in the installation of the plant; it means a great impetus to business in all lines and the considerable consumption of supplies; and it also means the most effective advertising for the city throughout America.

Do they want this? It lies with the citizens to decide.

A CITIZEN.

B.C. GOVERNMENT COMPLETE

Victoria, Nov. 7.—The Melville cabinet is completed. Mr. A. E. McPhillips has resigned the position of Attorney-General. Hon. Chas. Wilson, K.C., has accepted the portfolio rendered vacant and will return to Vancouver for re-election. The government does not intend to lose any time in fulfilling the elective requirements for the change. The by-election will come off in Vancouver in two weeks.

Mr. F. J. Fulton, of Yale, is President of the Council, the position formerly occupied by Mr. Wilson. They were both sworn into their respective positions. Mr. Fulton will not have to return to his constituency for re-election, for his office does not carry with it a salary.

PROFESSOR RIDDELL LEAVES

Under the above heading the last issue of Vox Wesleyana says: "Another member of the original Wesley College faculty has left to take up work in another institution. Three years ago Dr. Laird, the then Registrar, left to take a similar position in the University, and now Prof. Ridgell has accepted the Principalship of Albert College in Edmonton. Prof. Ridgell has been peculiarly identified with the growth of Wesley College. For nearly ten years he has held the chair of Classics, and during the last three he has discharged the duties of Registrar. He has taken a keen interest in everything connected with college life in all its phases. No one has taken a warmer interest in the varying fortunes of the football and hockey teams, or shown greater sympathy with the aims of the Literary Society, or the misadventures of Vox than Prof. Ridgell.

All who have come under his influence cannot have helped being affected by his patriotic loyalty to the Empire. Those who were fortunate enough to hear Prof. Ridgell make his great speech on the Boer war on the departure of our volunteers, Mr.

A. Daykin, for the Transvaal, will never forget the burning patriotism and love of liberty that glowed in every word.

"That Prof. Ridgell has been an extremely successful lecturer is testified by the uniformly high standing taken by his students at the examination, insuading five medalists in Honor Classics."

"But Prof. Ridgell's interest in the students was not confined to college classes and lectures. The path of many a homesick student has been cheered by one of those invitations to dinner, which made the happy recipient for the time being an object of envy."

"Prof. Ridgell is deserving of the esteem and regard of all Wesley students, not only as a scholar and able administrator, but as a noble and large-hearted man. In his new sphere of influence we wish him and his charming wife a happy and successful career."

HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-West Territories, excepting 8 and 26, which have not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

ENTRY.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the Local Agent for the district, in which the land is situated, receive authority for some one to make entry for him. A fee of \$10 is charged for a homestead entry.

HOMESTEAD DUTIES.

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto to perform the condition connected therewith under one of the following plans:—

1. At least six months' residence upon and cultivation of the land in each year during the term of three years.

2. If the father (or mother, if the father is deceased) or any person who is eligible to make a homestead entry under the provisions of this act, resides upon a farm in the vicinity of the land entered for by such person, or a homestead, the requirements of this act as to residence prior to obtaining patent may be satisfied by each person residing with the father or mother.

3. If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent countersigned in the manner prescribed by the act, and has obtained entry for a second homestead, the requirements of this act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4 must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 20 acres substantially fenced.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

APPLICATION FOR PATENT. Should be made at the end of the three years before the Local Agent, Sub Agent or the Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION. Newly arrived immigrants will receive at the Immigration office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-West Territories, information as to the lands that are open for entry, and the conditions in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and minerals laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg; Manitoba; or to any of the Dominion Lands Agents in Manitoba or the North-West Territories.

JAMES A. SMART, Deputy Minister of the Interior.

N.B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from Railroad and other corporations and private firms in Western Canada.

The Sunlight way of washing requires little or no rubbing. You should try Sunlight Soap. Will not injure dainty fabrics.

31	53.8	27.5

The average maximum temperature for the month was 53.2, and the average minimum temperature 30.5.

During the month 3.00 inches of snow, and .30 inches of rain fell.

PONOKA

Herald, Nov. 8th.

The opening of the new Presbyterian church is announced for the 29th of this month. Rev. D. G. McQueen, of Edmonton, will be present.

At the Board of Trade meeting on Tuesday evening a communication was read from Robert Tyner and Edward R. Wilman, stating that it was their intention to erect an up-to-date and fully equipped cannery at this place, and they asked certain assistance from the Board of Trade. It was the sentiment of the meeting that they be given every encouragement reasonable. We understand they will begin operations as soon as they secure a site.

A. B. Rowley, as manager of the Northwest Lumber Company, has begun the erection of what promises to be a very important industry for Ponoka. It is a large mill building in which will be installed a full equipment of complete saw mill machinery of the very latest designs. When this mill is completed the company will employ over sixty men in its operation and it can readily be seen that this will mean the circulation of a large amount of money in the town and district. From the fact that there is an almost inexhaustible supply of timber to be had and a growing demand for this product there is little doubt that the industry will prove a very successful undertaking for the company.

FROM UPPER PEACE RIVER

Reporter.
Mr. J. H. Reid, an old schoolmate of Johnston Carscadden, arrived on Wednesday from the upper Peace River country. Mr. Reid was one of the party of six which left Agincourt in March, 1898, for the Klondike, the party consisted of F. A. Walker, Johnston Carscadden, Wm. Hepburn, Abe Walker and J. R. Reid.

After several trips over the greater part of Alaska and the Yukon, Mr. Reid returned two years ago satisfied that the Upper Peace River was as good a field for the prospector as the far north. Part of the winter of 1901 and 1902 Mr. Reid was the guest of Mr. J. Carscadden in the spring he left for the Peace River by left for the B.C. and Cariboo way of Ashcroft, H.C. and Cariboo road. From Quenelle, the end of the road, he proceeded on of good quartz river, then a portage of 8 miles to the head of Parsump river, which is the south fork of the Peace. Mr. Reid and his partners then prospecting the Parsump and its tributaries to the mouth, they then ascended the Finley, the north fork of the Peace almost to the head. He reports the Finley as good wages only.

After prospecting the Finley and its tributaries that summer and fall they returned to Fort Graham where they wintered and trapped. This spring they were forced to come out for supplies as Fort Graham was sold for timber they left for the outside. After getting supplies at Fort McLeod, they returned to the Finley and report the finding of good quartz about Graham. About the 16th September they left for the outside. At Agincourt they heard of several Trunk Pacific railway. The prospect of a railway has caused great excitement in that part of B. C. as the incoming railway will mean the opening up of a vast mining district which cannot be worked at present owing to the inability of getting large machinery. Mr. Reid speaks of some good ranching country, west of Stewart Lake, which will settle rapidly from now on. He speaks

WESTERN CANADA HISTORICAL SOCIETY

Alberta.
There was a meeting of the executive of the Western Canada Historical society in the Dominion Land Office last night. The meeting was called to discuss what has been done by the society and to make plans for an active campaign.

The ordinance passed at last session of the Legislature was read. Votes of thanks were tendered J. J. Young, M.L.A., for looking after the ordinance through the House, and C. A. Stewart for drafting the bill.

It was decided that a set of by-laws should be drafted. A general meeting of the society will be held soon for the election of officers.

It was decided in the meantime to make an effort to start active work to attain the objects of the society, which are set forth in section 2 of the ordinance and read as follows:

The objects of the society shall be, and the society shall have power to engage in the collection, preservation, exhibition and publication of materials for the study of the history of Western Canada, and to acquire documents and manuscripts to obtain narrators and records of pioneers, to conduct a library of historical reference, to maintain a gallery of historical portraits and an ethnological and historical museum, to publish and diffuse information relative to the history of Western Canada, and to establish local affiliated societies of Western Canada.

ALL ROADS LEAD TO EDMONTON

EDMONTON is the centre of attraction of the North-West Territories today. No place in the west occupies such a unique and enviable position. It being the centre of the largest and richest agricultural and mixed farming district in Canada.

The future coal supply depot for the Territories, hence the future Manufacturing metropolis of the country. The coming great railway centre of the west. The gateway to the great agricultural, fur and timber country to the north and the distributing point for an area exceeding 900,000 square miles. The extent and far reaching trade of Edmonton is a source of wonderment and surprise to visitors but is only an indication of what it is going to become. Edmonton is to-day one of the greatest distributing points of the world, forwarding goods over an area six times the size of the British Isles.

The world moves and so does Edmonton. It is a beehive of industry. It is estimated that about 700 buildings have been erected this year and no signs of a let up. Building operations were carried on all last winter and will be all this winter. The future of Edmonton is assured. Nothing can hinder or keep it back.

The long days of waiting and uncertainty are over. "There is a tide in the affairs of men, which, if taken at the flood, leads on to fortune." The flood tide is upon us. Now is your opportunity. No time like the present. Don't forget October 19th the day on which we begin, the sale of lots on

The Norwood Addition

We have surveyed the Alex Rowland Property adjoining the town, north of Rat Creek, into Lots, size from 33 by 120 to 48 by 150, with good wide streets, lanes and boulevards. These Lots we are now offering at from \$40 to \$150 each on easy terms. This is a beautiful residential site, high, dry and clean and is going to be a very popular locality, being so convenient to the business centre and better outside the town limits free of Municipal taxes. Many enquiries for them are already being made.

The Sale Is Now On.

Take advantage of this opportunity and you won't have to look back upon it with regret as another lost chance.

TERMS:—One-quarter Cash; Balance in Three Equal Annual Payments with Interest at 3 per cent.

Think of the money that has been made in Town Lots here in the past two years, is being made and going to be made. Think of the money you might have made by buying early if you did not. Buy some of these lots and make money.

McDOUGALL & SECORD
